Closing Song, "Take the Name of Jesus With You" ... No. 82  
BENEDICTION

## CARBON AND DISTRICT NEWS NOTES

Matt Kary's light delivery is no more. It came off second best in an argument with a big coal truck on Wednesday. Matt escaped with a few bruises but an occupant of the other truck required 15 stitches to close the cuts in his face, it is reported. RCMP investigated the accident which occurred about a mile from town on the mine road.

Gordon Murray left for Calgary today to receive medical treatment.

The death occurred this week of Mr. August Dobler, a Carbon resident for a number of years.

The Old Timers' banquet and dance which was to have been held on Wednesday has been postponed to a future date.

Fred Bates Auction Sale, 1-2 miles east and 4 miles north of Acma on Thursday Nov. 28th. Terms Cash. N. Boese, Auctioneer.

Mrs. Bessant of Camrose is visiting at the home of her parents, Mr and Mrs. John Atkinson Sr.

Wyndham Bros. Sale, 1-2 mile north and 11 miles west of Carbon on December 3rd. Noel Boese, Auctioneer.

The annual meeting of the A. F. U. will be held on Monday Dec. 2nd.

Mrs. W. H. Levins has returned to the coast after spending the past five weeks with her son, Chas. Cave

Mrs. Norman Nash was a Calgary visitor last week-end

Gamble Ladies' Aid will hold a tea and bazaar in the Scout hall on Saturday, Nov. 23.

Mrs. Williamson spent a few days in Calgary last week.

Bruce Ramsay of Edmonton was in Carbon recently for a short while. Bruce is employed by the department of municipal affairs at Edmonton.

The gold these days. The thermometer stays around the 20° below mark. A considerable amount of snow has fallen.

Renew that subscription now!

Some 1500 people attended the opening and dedication service of the Carbon Baptist Church despite the cold day on Sunday. The complete program is published in this issue.

Miss Joan Heath was a Carbon visitor on Monday.

Order that load of coal today. Don't wait for the next cold snap and chase the drayman out. He feels the cold too.

Some men fear responsibility more than they fear hunger.

Having good times doesn't bring about good times.

## Farm Subsidy of Beer, Whisky, Denounced

Objection to the prairie grain grower being compelled to subsidize the manufacture of whisky and beer is made in a communication forwarded to Prime Minister King by The North West Line Elevators Association. The letter points out that distillers of whisky and industrial alcohol are being supplied with farmers' wheat by the Canadian Wheat Board on the basis of \$1.25 per bushel while there is a demand in world markets for this wheat at \$2.25 per bushel. At the same time the government is forcing the sale of farmers' barley to Canadian maltsters at 69 cents per bushel when United States maltsters are offering \$1.75 to \$1.77 for malting barley, but the government is refusing permits to export Canadian barley to the United States.

In its letter to the Prime Minister the Line Elevator Companies charge that the policies of the Canadian Wheat Board are being dictated by the departments of trade and commerce and agriculture and that the presumably independent Wheat Board "merely does their bidding." Referring to the Wheat Board and government grain policies the letter states:

"The chief executives of our member companies have spent their lifetime in the grain business and it is reasonable to assume the expert knowledge of grain justifies them in speaking as they now do with some authority on government policy in respect to the grain products of Western Canada, yet it is strange to find the responsible departments of your government are supremely indifferent to any expression of opinion from them, on marketing policies. It is an erroneous presumption and will prove a decidedly expensive one to western farmers to mistake ideological theories for practical solutions of grain handling and marketing problems. As an illustration, the Wheat Board was set up as a stabilizing factor. It is true that during the war, of necessity its powers and activities were greatly widened. There is, however, little evidence now of an intention to revert back to the fundamental principle upon which a Wheat Board can operate with success. Furthermore from the legislative authority under which the Wheat Board operates, one would presume that organization to be an independent body. It is, however, apparent its policies are dictated by the department of trade and commerce and by the department of agriculture, and that it merely does their bidding. We are not expressing either criticism or annoyance at the enormous network of red tape that has of necessity been built up during the war by the wheat board, but on behalf of the western farmer and private enterprise we do view with concern the evident tendency to main-

tain and increase this monopolistic control of all grains and grain handling activities to the detriment of the western farmer."

The Line Elevators urge that the initial payment to farmers for the 1946 wheat crop be raised to \$1.80 per bushel; that the ceiling price of barley and oats be raised to 92 cents and 73 cents respectively, plus payments from the equalization fund on exports, and apremium on malting barley. Discontinuance of the sale of grain for domestic human and animal consumption and to distillers and maltsters at less than world values is advocated. The Line Elevators also urge discontinuance of federal freight subsidies to eastern and B.C. feeders which to date has cost the Dominion government \$73,000,000.

Equality won't come through the distribution of wealth but through a change of heart.

## Come & Hear

our  
North American Baptist  
Evangelist

REV. J. C. SCHWEITZER

Preaching and Teaching

### "The Word of Life"

at the newly built

Carbon Baptist Church  
Nov. 24-Dec. 5

at 7.30 p.m.

These meetings, God willing, will be held every night excepting Saturday throughout the two weeks. The greater part of the services will be conducted in the English language. The children are also heartily invited as Rev. Schweitzer will have a treat for them every night. The opening service of this campaign is already to take place this coming Sunday morning at 11 a.m. (Sunday School beginning at 10 a.m.)

We will have special music every night: Orchestra, Mixed Choir, Male Choir, Ladies' Sextette, Male Quartette, etc.

### You are Invited

BRING YOUR FRIENDS

E. M. WEGNER,  
Baptist Minister.

## Is Research Meeting Needs?

The Dominion Experimental Farms Service celebrated its diamond jubilee this year. In sixty years the experimental farms have grown from the original five established in 1886, to a chain across the country of 29 farms and stations, 6 substations, 8 laboratories, 157 illustration

stations and 51 district experimental sub-stations.

Great changes have taken place in Canadian agriculture in these sixty years. The amount of land used for farming has increased fourfold. Land sown to grains such as wheat, oats and barley has increased from 15

million to 57 million acres. The number of hogs on farms is no doubt seven times what it was in 1886.

This tremendous growth in agriculture was given many a push forward by the research work of the Dominion Experimental Farms. Through the discovery of Marquis wheat the prairies were enabled to become the 'Bread Basket of the World'. Now there is also a sawfly resistant wheat called Rescue.

But wheat has been only one of the fields of activity of the experimental farms. They have also developed suitable varieties of hybrid corn, tobacco, sugar beets, soybeans. They have done a great deal of valuable work on varieties of fruit, poultry, soil conservation, animal breeding and animal nutrition, weed and insect control, and many other problems of agriculture.

Other agencies besides the experimental farms are active in agricultural research. Some of these are Dominion, some are provincial. And some are private organizations and commercial firms such as canning companies.

### OFF THE RECORD

The Russians seem to think that they are merely trying to awaken the people of the world by their tactics in the United Nations Organization. Is this why they have been knocking everyone who disagrees with them?

## HAVE YOU ANY RUPEES IN YOUR PURSE?

Mrs. Blair has been talking for months about buying a real Indian shawl. But wouldn't she be surprised if she found it priced in rupees! That it isn't, is due in large measure to the services rendered by your bank.

When you buy imported goods in Canadian stores, you pay in Canadian dollars—but the people who made them were paid in Indian rupees, British pounds, French francs . . .

It is the same in reverse with exports. You may be one of the three out of every eight Canadians who make their living through goods sold abroad. If so, you receive your wages in dollars, but your products are sold in all sorts of foreign currencies.

Arranging the complicated exchange and transfer of foreign funds in such transactions is but one of your bank's many services enabling Canadians to buy and sell abroad.

## Growth of Locker Plants Traced

ACME — The growth of locker storage plants in Alberta from 1941 when there were four in the province until the present time when there are 82 was outlined by L. H. Arnold, Edmonton, provincial supervisor of locker plants, when locker holders of Acme met in the Odd Fellows hall recently.

The meeting was held to demonstrate to locker holders latest storage methods as employed by Edward Fischer here.

A new system of handling patrons' products from the time they are brought in until they are removed was outlined by Mr. Arnold. It was felt that the new plan would prove more acceptable to the customer.

A demonstration of the preparation of a side of beef for the cold storage locker was given during the meeting by employees of the local company. Following the business portion of the meeting a question and general discussion period was held.

## Carnival To Aid Sports Park

ACME — The Acme and district Board of Trade aims to make Acme park one of the best sports parks in small Alberta communities, it was stated by a board spokesman at a recent meeting of the trade group here.

To meet expenses entailed in the improvement of the park an ice carnival will be held later in the year.

Among the improvements will be the erection of children's playground equipment, slides, teeter-totters and swings.

A resolution in the form of a protest to the provincial government against any reduction of the grant paid to the school was endorsed by the board.

## IN MEMORIAM

In loving memory of mother, Mrs. A. R. Walker, who passed away November 16th, 1945.

We miss you and mourn for you surely.

But not with outward show, For the heart that mourns sincerely,

Mourns silently and low.

—Ever remembered by Husband and Family and grandchildren.

## ROCKYFORD

The Griffiths Garage is receiving its final trim inside.

—★—  
Lorne Fuller has broken his collar bone for the second time in five weeks.

—★—  
Frank Ewing is sporting a new Mercury.

—★—  
The skating rink has been levelled for flooding with the municipal equipment.

—★—  
Viggo Pederson has his new steam boiler and stoker in operation.

## Brings Home Goose

ROCKYFORD — The usual way to bag Canada's big gray geese is with a well-oiled shotgun. But not for a young school boy of Rockyford, who prefers to take his animals alive.

Irvine Katterhagen first saw the goose while skating on the farm pond. The bird was trying to take to the air but failed to do so because of the slippery surface. Irvine put on one of his best sprints and with a burst of speed grabbed the goose by the neck.

His parents received a real surprise when Irvine brought the evening's dinner back alive.

## BRIDE WELCOMED

ACME — Another English war bride, Mrs. Betty Johnstone was welcomed to this district when 50 women held a shower in her honor at the home of Mrs. W. Reddekopp. Games and contests provided entertainment during the evening, highlighted by the presentation to the bride of a decorated basket laden with gifts. Mrs. Reddekopp made the presentation on behalf of the assembled guests.

## Legion Asks Gov't Control Building

The Canadian Legion said in a brief presented to Prime Minister Mackenzie King and members of the cabinet that the Dominion's "entire program of rehabilitation and reconstruction" is "in imminent danger of complete failure" unless the government takes control of building.

Briefs on housing, Veterans' pensions dependents and rehabilitation were presented by Legion representatives from the nine provinces and from Legion commands in the United States. Maj.-Gen. C. B. Price, Dominion president, headed the delegation.

## BIRCHAM NEWS

Mrs. A. J. Kane and Frank of Calgary were recent visitors at the home of Mr. and Mrs. Stan Kane.

—★—  
Mr. and Mrs. Eddie Siewert and family and Mr. and Mrs. Guy Stickney of Calgary spent several days visiting relatives and friends in Drumheller.

## Surprise Party

ACME — When sounds of banging and singing outside her home Thursday evening brought Mrs. Louis Brosteau to the door she was pleasantly surprised to find on her doorstep 40 of her women friends, all carrying parcels and all bent on expressing their regret at her impending departure from Acme. With her family, Mrs. Brosteau will take up residence in Beiseker.

During the evening Mrs. C. Young presented Mrs. Brosteau with a lamp and tray on behalf of her assembled friends.

In thanking them for the gifts Mrs. Brosteau informed them they were doubly appreciated as she was that day celebrating her wedding anniversary, a fact unknown to her friends.

Refreshments provided by the guests were served during the evening.

## CARD OF THANKS

Mrs. W. H. Levins wishes to thank the Carbon Old Timers' Association for the flowers received while she was confined to hospital in Drumheller.

To those who eagerly await their new cars or trucks... here is the

# LATEST NEWS ABOUT GENERAL MOTORS DELIVERIES

Everybody from factory to dealer is doing everything that  
can be done to speed deliveries to you

Because of the continued and unavoidable shortages of various materials, production of new cars and trucks has remained behind our expectations. As a result, shipments of new cars and trucks to dealers for delivery are still far below the level we and the factory had hoped to attain by this time.

We know that General Motors is doing everything possible to step up its production totals — to ship more and more cars and trucks to us and to its hundreds of other dealers throughout Canada... and we know, too, that we are assured of getting our full proportionate share of the current and future output.

Of this you may be sure: We shall continue to make deliveries

of cars and trucks to our customers as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you do take delivery of your new General Motors car or truck.

Keep Your Present Car or Truck Running  
Meanwhile, may we suggest that you safeguard your transportation by bringing your car or truck to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new General Motors car or truck comes along.

**Does Agricultural Research Pay?**

In no field of scientific effort has there been in recent years a greater or a more rapid advance than in Agricultural Research. In none, however, has progress been so grudgingly acknowledged or its commercial value so short-sightedly under-rated.

The farmers of Western Canada have already gained immense financial benefits from agricultural research. Take, for instance, the development of rust resistant wheats. It has been estimated that, during the 6-year period 1938-1943, the growing of wheat varieties resistant to stem rust (Thatcher, Renown, Apex and Regent) increased the average annual farm income in Manitoba and eastern Saskatchewan alone by \$27,240,000.

Similar financial benefits, even if less pronounced, have resulted from research work in relation to the rehabilitation of drought areas, the control of soil erosion, weeds, field crop insects, and the development of disease resistant varieties of oats, barley, flax, and other field crops. It is difficult to exaggerate the economic value of such research.

Government stabilization and control of farm prices by long term trade agreements may produce, at least temporarily, a measure of security for the prairie farmer. But the results of agricultural research, wisely applied, will prove more permanently effective both in increasing the volume and improving the quality of the products of our prairie soils, and in reducing, without regional injustices, the cost of their production, transport, and distribution. Agricultural research is planned farm security.

If Canada is to maintain a high export level of farm products in the competitive markets of the post-war world, she must recognize the economic value of agricultural research. Does agricultural research pay? The answer is definitely in the affirmative.

**The Government Liquor Control Act of Alberta****APPLICATION FOR BEER LICENSE**

Public notice is hereby given that the undersigned intends to apply to The Alberta Liquor Control Board for a License to sell Beer by the glass or open bottle, for consumption on the licensed portion of the premises and also to sell Beer by the unopened bottle for consumption elsewhere than upon the licensed premises, in conformity with the provisions of The Government Liquor Control Act of Alberta and the Regulations made thereunder, with respect to the following described premises:

Beer salesroom in the South East portion of the ground floor of the Carbon Hotel, situated on Lots 29-30-31, Block 4 Plan 4387P, in the Village of Carbon, Province of Alberta.
